

## SOCIAL ENTERPRISE SUMMIT

### *Developing social business: towards a sustainable and inclusive economy*

28 March 2022

*The social economy sector plays an important role both in the overall economic growth of the country and in addressing the societal challenges. Organisations in this sector have demonstrated a remarkable ability to contribute to the strengthening and building of resilient communities and to manage major transitions as well as '[...] outperformed other industry sectors and generated up to 12% of jobs while also advancing key societal issues. The collective scale and impact of these purpose-driven enterprises is vast, with 2.8 million social enterprises in Europe alone [...]'. (Unlocking Social Entrepreneurship for the Recovery | World Economic Forum, Davos 2021).*

*At the end of 2021, the European Commission set out a Social Economy Action Plan, which will be launched this year. The Plan aims to improve social investment and entrepreneurship, support social economy organisations to start up and scale up their activities, increase their social impact, innovate and create jobs. It will also draw on the unique characteristics of social economy organisations in order to ensure that the green and digital transitions leave no one behind and that our communities strengthen their economic and social resilience.*

*Social economy organisations play an important role in job creation, inclusion, sustainable growth, and integration of vulnerable groups into the labour market. They ensure industrial development and empowerment, as well as reskilling and upskilling. Social economy organisations operate in a wide range of economic sectors and ecosystems, including social and public services, health, social housing or affordable energy for the most vulnerable, thus helping mitigate the effects of the economic crisis and increase resilience.*

*This year, the **Social Enterprise Summit** invites leaders of the social business ecosystem to dialogue with policy makers on the development prospects of this sector and its importance for the Lithuanian economy and for addressing societal challenges. The event will feature foreign keynote speakers who will provide an overview of best practices.*

*The event is co-organised by the Lithuanian Social Business Association in cooperation with the European Commission Representation in Lithuania, 'Enterprise Lithuania', the Office of the Nordic Council of Ministers in Lithuania, the Office of the Embassy of Canada and NGOs which include 'Avilys', 'Gerinorai.lt', and 'Katalista Ventures', Vilnius University Institute of Sociology*

and Social Work, Social Economy Europe, the European Network for Social Integration Enterprises (ENSIE).
